About the Organization

SCOPE OF WORK The Wellness Kitchen and Resource Center provides support to the community through food programs and education – the only nonprofit in San Luis Obispo that prepares nourishing meals for individuals coping with cancer and other serious illness, as well as those seeking optimal health. Our education programs reach every sector including children and the Hispanic community. We have openings for board members who enjoy community outreach, assisting with fundraising and other projects. We hold one board meeting a month along with various committee meetings. A great group of staff and volunteers create a very positive, inspirational setting for preparing the Wellness and Healing foods each week. As we enter the sixth year, our goal is to expand our services and location.

We meet regularly on the second Monday of each month from 5:00-6:00pm.
